RIDER DRIVEN. BUILT WITHOUT COMPROMISE

After 30 years of rider-driven snowboarding, our 31st is a year of firsts. ThirtyTwo is ducking the rope with the introduction of our first snowboard line—boards built with the same passion behind our boots, outerwear, and bindings.

ThirtyTwo Snowboards are performance-driven and shaped by the needs and attitudes of our team. Six core demands lead the way: unique shapes, sturdier edges, bold graphics, true camber, precision flex, and a faster base.

With four collections built around distinct riding styles, there's something for every rider who lives for days on the hill. Head-to-toe is now ThirtyTwo.

2026

THE THIRTYTWO EXCLUSIVE WAY
TO TALK ABOUT SNOWBOARDS

DESTROY COLLECTION

A board that's loyal to the steel. True twins designed for park laps with a flex that snaps back and construction that goes hard every time.

SHRED COLLECTION

The mountain is your skatepark--ride it like one. All-mountain directional twin shapes built for every transition, lip, side hit, and roller. Regular or switch, let it EAT. - SFD

Slash COLLECTION

Sidecountry snow surfing for the freerider who lives for drawn-out turns and the rooster tail that follows. Not all who wander are lost--they're just chasing better lines.

COLLECTION

Where design hits the freezing point. ThirtyTwo's R&D division for hybrid styles and progressive shapes.

COLD WORLD

FORGIVING FLEX TWIN BOARD
DESIGNED FOR JIBBING ENDLESS PARK LAPS

A true park weapon, the Cold world is the best choice for your entry level rider or advanced rider that prefers a softer flex. The top sheet is treated with an eye catching metal flake that embodies the hot lap potential with the Cold world under your feet.

BEHIND THE ART: JOE KING

A Long Beach-based artist with deep roots in street-wear, Joe King's style is stitched into the fabric of skate, fashion, and pop culture.

MIDDLE EARTH

RETRO SHAPE AND PLAYFUL FLEX FOR
CREATIVE PARK SNOWBOARDING

The Middle Earth's retro popsicle shape is a blast from the past with technology from the future. The twin carbon boost stringers delivers a responsive pop while the bamboo paulownia core offers a comfortable medium flex.

BEHIND THE ART: KEVIN EMERSON

New England-born and NYC-based, Kevin Emerson is making waves in the city's fashion and skate scenes. Through his brand, Emersin Studio, he experiments with wash-and-dye techniques layered with hand-drawn and painted illustrations—resulting in one-of-a-kind artwork.

THRILL PILL

OUR MAXIMUM VOLUME SHIFT BOARD DESIGNED FOR RIPPING AROUND THE MOUNTAIN LIKE A SKATE PARK

Don't let the size fool you, the volume shifting on the Thrill Pill is a game changer. With a reduced nose and tail, the side cut rides larger than you would expect. Built with pure fun in mind, the Thrill Pill is a must have in every quiver.

BEHIND THE ART: NOEL BOYT

Colorado-born and world-tempered, Noel Boyt's formative designs have served as the blueprint for some of the most influential streetwear and skate brands in the game. With an almost otherworldly sense for color, pattern, and cultural undercurrents, his influence continues to reverberate through the brands he touched.

ATMOSPHERE

A SHAPED TAPERED DIRECTIONAL BOARD
DESIGNED TO BLAST THE ENTIRE PEAK

A new storm has been forming on the horizon and it has finally made land fall. The Atmosphere is a tapered directional dream designed to hover through powder and blow throw resort trails. Top to bottom the attention to detail in the atmosphere is force to be reckoned with.

BEHIND THE ART: MITCH DELANEY

After nearly a decade of sharpening his teeth in Volcom's iconic art department, New Englander Mitch Delaney found his way into the creative core of snowboarding with ThirtyTwo as Art Director.

CREEDLER

TWIN BOARD WITH PERFECT POP FOR FREESTYLE RIDING

Nothing screamed rebellion louder in the 1990's than the Volcom Stone. The Creedler is the pissed off Volcom version of the Thirtytwo T32M. Equipped with twin power stringers in the nose and tail, The Creedler is a re-imagined blast from the past.

MOCLOV

AN ATV DIRECTIONAL TWIN WITH OPTIMAL SIDE HIT POP

The Y2K era of Volcom fanned the flame into the worldwide fire storm snowboarding has become. The Moclov is a dressed to impress version of The Permanent Vacation. The responsive all mountain directional twin will have you saying "Yes Sir, I Agree."

BEHIND THE ART: MITCH DELANEY

COSM

HARD CHARGING TRUE CAMBER DIRECTIONAL
DESIGNED FOR ALL MOUNTAIN ADVENTURES

The roots of Volcom crawl deep into the DNA of snowboarding progression and history. Namely through the influence of their legendary films. Referencing the psychedelic side of the stone the COSM is the Volcom shape shift of the Snafu.

BEHIND THE ART: MITCH DELANEY

BYH - YOUTH

TRUE TWIN WITH A FRIENDLY FLEX FOR DEVELOPING THE NEXT GENERATIONAL PARK RIDER

The Big Youth Happening movement by Volcom focused on the future of rippers to come. The BYH is designed for just that, a park board built for progression through playful flex and quality ingredients.

BEHIND THE ART: MITCH DELANEY

After nearly a decade of sharpening his teeth in Volcom's iconic art department, New Englander Mitch Delaney found his way into the creative core of snowboarding with ThirtyTwo as Art Director.

T32M BINDING WITH FASE
PAT FAVA

w ²⁶/₂₇

thirtytwo | **FASE™**
FAST ENTRY SYSTEM

RIDER DRIVEN BINDINGS

Engineered to own every line, the T32M binding locks you in from pow to park. With unrivaled support, mind-bending flex, and uncompromising durability, It's built for the ultimate ride – every single time.

As for boot-to-binding connection?
Meet your new teammate.

The next-generation two-strap snowboard binding system

The FASE® Fast Entry System enhances the locked-in feel of traditional two-strap bindings, combined with an ultra-fast strapping-in process, while delivering unmatched high performance, all-day comfort, and a natural board feel.

Key Advantages of the FASE® System

- + Effortless fast entry and exit
- + Enhanced locked-in feel
- + True two-strap performance
- + Instant on-the-fly adjustments
- + Trusted by riders in every terrain and condition
- + Mountain-proof durability with lifetime warranty
- + Minimal weight and footprint
- + Compatible with all snowboard boots

Learn more about the FASE® System on [Thirtytwo.com](https://thirtytwo.com)

How do FASE® bindings work?

FASE® builds on the two-strap design by introducing three key ingredients: Each component plays a role, but it's the sum of these parts that makes the process of getting in and out of FASE® bindings so fast and intuitive.

THE AUTOBACK

The key to the revolutionary FASE® Fast Entry System, the AutoBack, allows for hands-free entry into the binding. This intuitive design automatically closes as the boot enters the binding and opens when you lift your boot out. The AutoBack also folds flat for skating, chairlifts, and storage.

THE FASTSTRAP

An innovative long ankle ladder that remains connected for ultra-fast, one-handed strapping-in. With a classic ratchet design to fine tune ankle strap tension, the FastStrap compliments the AutoBack's automatic closure system so riders can strap-in faster than ever before.

THE LOCKED-IN TOE STRAP

Simply set it and forget it. Designed to remain in position to complement the Fast Entry System. The LSR 2.0 buckle and unique tri-toothed ladder allow you to 'set it and forget it' or make easy on-the-fly fit adjustments.

USER FRIENDLY

An intuitive design with the classic two-strap interaction method as traditional two-strap bindings. The AutoBack functionality, combined with the convenience of the Locked-In Toe Strap, optimizes easy, one-handed strapping in whether stationary or on the go.

LACE

The TM-2 sets the standard for reliability, available in BOA, wide-foot BOA, and traditional lace options. A longtime team favorite, it's the most versatile boot in the lineup—ready for any rider, any style, any day. The TM-2's balanced medium-stiff flex delivers the perfect blend of support and freedom, making it equally at home in the park or on the steeps. Right out of the box, you'll get all-day comfort from plush Energy Foam cushioning and reinforced durability thanks to protective overmolds placed exactly where they count.

ZB-1 ZEB POWELL

Zeb Powell's riding is all about raw power and unstoppable confidence—and the new ZB1 boot captures that same energy. Built with a fun, responsive flex, its fully injection-molded tongue delivers smooth control and consistent feel every run. The innovative Power Strap System locks you in with rock-solid security you can trust no matter the conditions. Underfoot, the ultra-stable outsole and heat-moldable liner combine for precision grip, lasting comfort, and total control across any terrain.

OUTERWEAR FIT GUIDE

NOTE: The following data is for **LARGE** size items. A full spec sheet is available on the following pages. *Note - Larger Snow Waist Size Accommodates Layering

RECOMMENDED FOR WOMEN'S TO SIZE DOWN ONE FULL SIZE

RELAXED

This fit offers plenty of room for ease of mobility, comfort, and layering.

SIZE LARGE
5'10" - 6'1"
170 - 190 lbs

CHEST	25"	63.5cm
ARM LENGTH	34"	86.36cm
LENGTH	33"	83.82cm

BOXY

A true square fit. Room across the chest, but short enough so that it falls right below the waist.

SIZE LARGE
5'10" - 6'1"
170 - 190 lbs

CHEST	26"	66.04cm
ARM LENGTH	34"	82.55cm
LENGTH	30"	76.20cm

REGULAR

What some might call a normal fit, regular-fitting garments are not too tight or too baggy, and can be worn over warmer mid-layer pieces with ease.

SIZE LARGE
5'10" - 6'1"
170 - 190 lbs

WAIST	38"	96.52cm
HIP	44"	111.76cm
INSEAM	32"	81.28cm
LEG OPENING	20.5"	52.07cm

RELAXED

Extra room throughout for an oversized look without being too baggy. Extended rise with a straight leg.

SIZE LARGE
5'10" - 6'1"
170 - 190 lbs

WAIST	38"	96.52cm
HIP	47"	119.38cm
INSEAM	32"	81.28cm
LEG OPENING	21.5"	54.81cm

JIB

Jib Gurl's Custom Fit. Our widest fit. Narrower waist, oversized thigh, straight leg with a shorter inseam.

SIZE LARGE
5'10" - 6'1"
170 - 190 lbs

WAIST	32"	81.28cm
HIP	51"	129.54cm
INSEAM	29"	73.66cm
LEG OPENING	15.5"	39.37cm

WINDBREAKER

Classic 90's Windbreaker
Boxy Fit with
wider shoulder
and arm.
